

Shipping International Orders

International orders require additional shipping documents for customs. These documents will automatically print with the pre-paid shipping label and must accompany the package when given to DHL.

Additional shipping documents include:

- Archive Doc
- Commercial Invoice

The pre-paid shipping label and additional documents should be attached to the package using an adhesive pouch (available from DHL upon request).

Place shipping label, archive doc and commercial invoice in adhesive pouch.

Attach adhesive pouch to front of package.

If you do not have an adhesive pouch, use tape to secure the pre-paid label to the package. Either staple the additional shipping documents together or place in an envelope, then lightly tape to the package.

Use tape to secure the shipping label.

Lightly tape archive doc and commercial invoice to the package.

IMPORTANT: Please make sure these additional shipping documents can be accessed by the shipping provider.
